

The arts and artistic expression are vital elements of Downtown Tyler's identity and history. They serve as valuable social and economic contributors by creating a dynamic and active cultural scene.

Public art provides unparalleled access to the visual arts in our daily lives, adding beauty to otherwise impersonal spaces, and enabling individuals to more fully identify with the community.

If you know of more Downtown art not included in this map, or if you would like to paint a mural, or create a sculpture, please let us know!

**Visit [DowntownTyler.org](http://DowntownTyler.org) for artist information and more details on each art installation.**
